SIMPLIFY EMPLOYEE SEARCH WITH THE CORPORATE DIRECTORY

In many workplaces, accessing the right employee details is harder than it needs to be. Teams waste time digging through Azure profiles just to locate basic details like job title, department, or supervisor.

Our **Corporate Directory** solves this by providing a **centralized, modern directory inside SharePoint Online**. With powerful search and filtering, employees can instantly connect with the right person or team, boosting collaboration and cutting down wasted hours.

Key Benefits

Advanced Search & Filters
Find anyone in seconds

CSV Import
Quick setup with existing HR data

Mobile-Ready Interface
Consistent experience across devices

Streamlined HR & Onboarding
Faster integration for new hires

The result? Better productivity, smoother communication, and a more connected workplace.

Deploy it today directly from AppSource:
